

Detaljni izvedbeni plan

Akademska godina: 2025/2026	Semestar: Zimski
Studiji: Povijest (R) (izborni) Sestrinstvo (I) (izborni) Komunikologija (R) (izborni) Psihologija (R) (izborni) Sestrinstvo (R) (izborni)	Godina studija: 1
Sociologija (R) (izborni) Primaljstvo (R) (izborni) Primaljstvo (I) (izborni)	

I. OSNOVNI PODACI O KOLEGIJU

Naziv kolegija: History of Epidemics, Medicine and Society

Status kolegija: Obvezni ECTS bodovi: 4 Šifra kolegija: 278809

Ukupno opterećenje kolegija

Vrsta nastave	Ukupno sati	
Predavanje	30	
Seminar	15	

Mjesto i vrijeme održavanja nastave: HKS - prema objavljenom rasporedu

II. NASTAVNO OSOBLJE

Nositelj kolegija

Ime i prezime: Puljizević Kristina

Akademski stupanj/naziv:

Kontakt e-mail:

 $\underline{kristina.puljizevic@unicath.hr}$

Telefon:

Konzultacije: Prema objavljenom rasporedu

Suradnici na kolegiju

III. DETALJNI PODACI O KOLEGIJU

Jezik na kojem se nastava održava: Hrvatski

Opis kolegija

This course, following the subject and methods of the social history of medicine, analyses the relationship between communities and diseases epidemics, as well as infectious diseases that, at various points in history, "paralyzed" the collectives, influencing economic trends, demographics, and mentalities. The course is structured both chronologically and thematically. Students will be introduced to the earliest recorded epidemics, emerging with the adoption of settled lifestyles. The course will then explore ancient medicine, which formed the foundation of medical responses to disease challenges up until the modern era. Attention will be given to the medieval phenomenon of leprosy and the particularly devastating impact of bubonic plague epidemics, starting with the Black Death of 1348, and continuing thereafter. The course will investigate the dubious causes behind the disappearance of certain diseases (such as leprosy and plague); the conditions leading to the emergence of new ones (such as syphilis in the 16th century); changes in society's sensitivity toward persistently present diseases (like tuberculosis); and the response to sudden epidemics in the 19th century (such as cholera). The growing role of medicine and the increasing interest of state structures in preventing and treating diseases during the 18th and 19th centuries will also be highlighted. Finally, the course will analyze the first postmodern infectious disease, AIDS, in a time when society had already come to terms with the departure of large-scale and devastating epidemics.

1. Master basic concepts from history of medicine

Recognize fundamental processes from the social history of medicine and the history of epidemics

Očekivani ishodi učenja na razini kolegija

- 3. Distinguish processes of individual historical periods and the social history of medicine themes according to historiographic approaches and research achievements
- 4. Recognize the hierarchy of historical factors and explain the causality of historical processes
- 5. Critically analyze and interpret historical records

Obveze studenta

Način ispitivanja i ocjenjivanja

Preduvjeti za dobivanje potpisa i polaganje završnog ispita

- 1. Regular attendance at classes attendance of at least 70 % of classes according to the study program.
- 2. **Fully completed seminar obligations** prepared and submitted assignments (critical analysis of selected historical records)
- 3. Obtaining a minimum success rate of 35 % during classes within the assigned teaching activities achieved cumulatively.

Grade Scale:

insufficient (1) - 0 to 49.9%

sufficient (2) - 50-64.9%

good (3) - 65-79.9%

very good (4) - 80-89.9%

Način polaganja ispita

excellent (5) - 90% and above.

a) Teaching activities:

- a. Seminar obligations 20 % of the grade
- b. Midterm exam 50 % of the grade

b) Final exam:

a. Final exam – oral or written: 30 % of the grade (to pass, it is necessary to solve at least 50% of the exam)

Način ocjenjivanja

- 1. **Teaching activities** (continuous knowledge assessment, midterm exams, seminar).
- 2. Final exam (oral or written)

Detaljan prikaz ocjenjivanja unutar Europskoga sustava za prijenos bodova

ACTIVITY TYPE	ECTS Student Workload Coefficient	GRADE PERCENTAGE (%)
Class Attendance	1,2	0
Seminar Presentation	0,56	20
Midterm Exam	0,70	25
Midterm Exam	0,70	25
Total in Class	3,16	70

Final Exam	0,84	30
TOTAL ECTS (Classes + Final Exam)	4	100
